

BALACHANDAR SARAVANAN

Technical Writer

Bengaluru, Karnataka | +91 97511 94576 | balachandarsaravanan32@gmail.com | [balathetechwriter.github.io](https://github.com/balathetechwriter)

OBJECTIVE

Detail-oriented and adaptable Technical Writer with 5+ years of experience simplifying complex information into clear, user-friendly documentation. Looking to use skills in writing, organizing content, and following style guides to create accurate, engaging, and easy-to-use materials that improve product usability and customer satisfaction.

EXPERIENCE

Technical Writer

eClinicalWorks India — Bengaluru | Aug 2023 – Present

- Authored detailed release notes for each product version, clearly communicating new features, bug fixes, and known issues to internal teams and end users.
- Applied DITA and DocBook XML frameworks to structure and modularize content, enabling efficient reuse, version control, and multi-channel publishing.
- Created and maintained user manuals, FAQs, and troubleshooting documents to support software and product releases.
- Updated documentation regularly to reflect product enhancements, bug fixes, and new features.
- Translated complex technical information into clear, easy-to-understand content for both technical and non-technical audiences.
- Collaborated with cross-functional teams, Subject Matter Experts (SMEs), and QA teams to gather requirements and incorporate product enhancements into user documentation.
- Edited and proofread content to improve readability, consistency, and adherence to style guidelines.
- Designed flowcharts, step-by-step guides, and visuals to simplify technical processes for end users.
- Ensured documents were well-organized, searchable, and aligned with user needs.
- Worked within the Software Development Life Cycle (SDLC) to align documentation with product design, development, testing, and release timelines.

Additional contributions

- Led the transition from Adobe FrameMaker to the new CMS tool Paligo (DocBook XML-based), streamlining authoring by configuring layouts and migrating legacy content.
- Helped new writers get started with Paligo by providing training and guidance, making their onboarding smoother.
- Set up key components in Paligo, such as PDF and HTML5 layouts, templates, variable sets, and reusable sections, to make documentation easier and more efficient.

Technical Writer

TLE Technologies Pvt Ltd — Bengaluru | Jul 2021 – Aug 2023

- Created, updated, and revised technical manuals — including user manuals, component maintenance manuals (CMMs), release notes, online help, service bulletins, and other technical documents — for GE Aviation and Boeing projects.
- Analyzed customer inputs such as BOMs, engineering drawings, and test procedures to document complex technical processes.
- Documented all manuals in compliance with Simplified Technical English (ASD-STE100).
- Applied standards such as ATA 100, iSpec 2200, and S1000D while preparing technical manuals.
- Gathered requirements from SMEs and developed clear, concise manuals based on their inputs.
- Worked in an Agile environment to keep documentation aligned with product development.
- Participated in peer reviews to maintain quality and accuracy of deliverables.
- Planned and managed documentation tasks effectively to achieve on-time delivery (OTD) and ensure customer satisfaction.

SKILLS

Structured authoring & standards	XML (DITA, DocBook), Markdown
Documentation & authoring tools	Paligo CMS, Adobe FrameMaker (structured/unstructured), Arbortext Editor, Oxygen XML Editor, Microsoft Word, Google Docs
Code & text editors	Notepad++, Visual Studio Code, Markdown editors
Programming & web technologies	HTML, CSS, JavaScript, Python (intermediate)
Content management & version control	Git/GitHub, SharePoint
Graphics & visualization tools	Snagit, Adobe Photoshop, Microsoft Visio
Collaboration & project management	Jira, Wrike

EDUCATION

Bachelor's in Aeronautical Engineering

Jeppiaar Engineering College, Chennai | 2016 – 2020

PROFESSIONAL INTERESTS

- Supporter of the Docs as Code approach — treating documentation like code ensures version control, better collaboration, and closer alignment with the development lifecycle.
- Actively participate in multiple forums to help people resolve documentation and tooling issues whenever I can contribute my knowledge.
- Currently aiming to contribute to FOSS documentation projects as a way to give back to the community that has helped me learn and grow.
